

Fig. 44 STAGS prediction of in-plane warping at the straight panel edge at  $y = 0$  (the lower right-hand edge in Fig. 42). Overall axial bending is prevented. (IBCX0XL = 1 in the \*.STG file that, via execution of the PANDA2 processor, STAGSUNIT, generates the \*.bin and \*.inp input files for STAGS.) This is the case in which in-plane warping of the panel skin along the four edges of the STAGS model is permitted.
