

Fig. 45 STAGS prediction of in-plane warping at the straight panel edge at y = 12.3525 inches (the upper left-hand edge in Fig. 42). Overall axial bending is prevented. (IBCX0XL = 1 in the *.STG file that, via execution of the PANDA2 processor, STAGSUNIT, generates the *.bin and *.inp input files for STAGS.) This is the case in which in-plane warping of the panel skin along the four edges of the STAGS model is permitted
